PYBAR Mining Services and Diversified Minerals

PYBAR Mining Services

- Third largest underground mining contractor in Australia
- Established in 1993
- Head office in Orange NSW with projects in NSW, WA, VIC, SA, QLD, TAS and internationally
- The PYBAR Group also includes HMR Drilling, JTMEC, and PJL Group

Diversified Minerals

- Owner of the Dargues Gold Mine
- Acquired Unity Mining in June 2016
- Projects located in NSW and TAS
- Equity in other Australian projects
Dargues Gold Mine – Project Overview

• Located approximately 60km south east of Canberra, 14km south of Braidwood and immediately north of Majors Creek
• Employing 100-120 people locally and utilising local suppliers where possible
• Current five year mine life, with opportunities for extension
• Conventional underground mine with ore trucked to the surface for processing
• Produces a gold sulphide concentrate to be transported away from site
• No use of cyanide on site
Project Status

- Project originally approved in February 2012
- Construction commenced in February 2013, with the following completed:
  - Boxcut;
  - Laydown Area; and
  - Site Access Road.
- Project placed into care and maintenance in December 2013
- Acquired by Diversified Minerals in June 2016
  - Review and update of key project metrics
  - Finalisation of Project Approvals (Modification 3 and EPBC 2015/7539)
Project Status
Project Status
What to Expect in 2017

- Diversified Minerals and PYBAR are committed to recommencement of construction of the Dargues Gold Mine, with the following targeted timeline

- First Half 2017
  - Minor earthworks, clearing of pads and construction of small dams
  - Construction of sheds, offices and other mine support infrastructure
  - Bulk earthworks, including the Spring Creek Crossing, Tailings Storage Facility and Waste Rock Emplacement
  - Commencement of underground mining
  - Process plant construction
What to Expect in 2017

• Quarter 3 - 2017
  • Underground mining development continues
  • Process Plant construction continues
  • Tailings Storage Facility earthworks well advanced

• Quarter 4 – 2017
  • Underground mining – ramp up to full production
  • Process plant commissioning and ramp up to full production
  • Stage 1 of the Tailings Storage Facility complete
  • First concentrate production
Health and Safety

- Values – Safety, Service, Respect, Results
- Construction site
- Site boundary, single point access via front gate
- Site access must be prearranged
- Public access is restricted to site offices
- Site induction
- PPE
Environment

• Monitoring
  • Water quality and quantity
  • Air quality
  • Noise levels and blast vibrations
  • Biodiversity (flora, fauna and aquatic ecology)

• Reporting
  • Monthly environmental report
  • Annual environmental monitoring reports (AEMR, EPBC Compliance and EPL Annual Return)
Community Engagement

• Sponsorship:
  • Braidwood Races
  • Braidwood Rodeo
  • Redbacks Rugby Club
• Braidwood Recreation Centre upgrade – Part 4 agreement with QPRC
• Dargues Gold Mine Community Consultative Committee
• How to contact us:
  • Phone – 1800 732 002
  • Email – DGM.Community@divminerals.com.au
Supplier Information

- Centralised Procurement
- National Tenders/Quotes through Tenderlink
- Focus on serviceability to each site
